Recommended Specifications for PC's Running SafeDispatch™

Application Server PC

In order to effectively install and ideally run the SafeDispatch™ Application components including the Database, Application Server, Gateway and Admin Module within the application, a specific PC must be dedicated to the application alone. The *Application Server PC* would also be the PC that will have your control station MOTOTRBO® radios connected as well.

Requirement	Description
Operating System (s)	Windows 7 Ultimate, No Media, 64-bit, English
Processors	3rd Gen Intel® Core i7-3770 (Quad Core, 3.40GHz, 8MB w/HD4000 Graphics)
